Physical Plant Equipment

Lighting Control Systems

House Light Dimmer

Incorporates all solid-state logic, modular configuration, toroidal filtering, four independent level presets, variable drive rates with a full complement of local and remote interface controls, a LED bar graph level indicator and our "rainy day matinee" front cover low level trimmer, measures 14"W x 10"H x 5"D.

LCSHLD2.4 House Light Dimmer 2.4kw	\$ 975.00
LCSHLD3.6 House Light Dimmer 3.6kw	1100.00

Deluxe House Light Dimmer

Provides all of the features of the House Light Dimmer, plus a totally independent emergency bypass system, with a full complement of local and remote interface controls, a LED bar graph level indicator and our "rainy day matinee" front cover low level trimmer, measures 14"W x 10"H x 5"D.

LCSDHLD2.4 Deluxe House Light Dimmer 2.4kw	\$ 1,300.00
LCSDHLD3.6 Deluxe House Light Dimmer 3.6kw	1,400.00

Encore Dimmer

Contains two complete, independent, fully adjustable lighting control systems, a 4-position house unit and 2-position stage unit with a full complement of local and remote interface controls, a LED bar graph level indicator and our "rainy day matinee" front cover low level trimmer, measures 14"W x 10"H x 5"D

LCSED2.4 Encore Dimmer 2.4kw	\$ 1,170.00
LCSED3.6 Encore Dimmer 3.6kw	1,375.00
LCSED3.6/2.4 Encore Dimmer 3.6kw House, 2.4kw Stage	1,275.00

Other Wattages, Operating Voltages and Special Application Lighting
are available for the above Dimmers.
Please consult Factory for pricing and availability.

Physical Plant Equipment

Lighting Control Systems

Showcase Dimmer

Incorporates, in one convenient enclosure, a complete LCS/Deluxe House Light Dimmer with its associated emergency bypass capability and a complete LCS/Universal Dimmer for either stage or wall wash lighting, measures 14"W x 19"H x 5"D.

LCSSC2.4 Showcase Dimmer 2.4kw.....	\$ 1,825.00
LCSSC3.6 Showcase Dimmer 3.6kw.....	1,960.00

Universal Dimmer

A compact multi-purpose, 2-position system, incorporates individual level presets and drive rates, measures 10 1/2"W X 9"H X 4 1/2"D.

LCSUD2.4 Universal Dimmer 2.4kw	\$ 740.00
LCSUD3.6 Universal Dimmer 3.6kw	825.00

Other Wattages, Operating Voltages and Special Application Lighting
 are available for the above Dimmers.

Physical Plant Equipment

Lighting Control Systems

Architectural Lighting Control Systems

The Architectural Lighting Control System from Kelmar delivers proven, reliable performance in a compact, cost effective package. Three position presets together with individually adjustable up and down rates satisfy all applications. Rapid full level circuitry insures safe illumination levels in just a fraction of a second. A shallow back pan with 3/4" & 1/2" KOs' both top and bottom, clearly marked AC Terminal Strip, and easily removable one piece cover guarantees simple, straightforward field installation.

LCS-AS2.4 Architectural Dimmer 2.4kw \$ 645.00

LCS-AS2.4-2B Architectural Dimmer 2.4kw 2 Breaker Version 740.00

LCS-AS2.4-3B Architectural Dimmer 2.4kw 3 Breaker Version 770.00

Console Dimmer

The new Console Mount Lighting Control System from Kelmar delivers proven, reliable performance in a compact, cost effective package. Three position presets together with individually adjustable up and down rates satisfy all applications. Rapid full level circuitry insures safe illumination levels in just a fraction of a second.

This product also makes a great replacement module to retrofit older Dimmers whose parts are no longer available.

LCS-CDM Console Dimmer Module 2.4kw \$ 560.00

Physical Plant Equipment

Dimmer Remote Control Systems

Deluxe Dimmer Remote

The #7872 Remote Control Station offers full remote control for either the Kelmar Deluxe House, House Light, or Encore Lighting Systems. It can be conveniently mounted on a standard 4" x 4" electrical box with up to eight stations wired in parallel. All the interface wiring is low voltage, and under full load draws less than .2 of an amp.

DDR-1 Deluxe Dimmer Remote\$ 195.00

Dimmer Bypass Remote Control

The new Multiple Theatre Dimmer Bypass Remote Control Station is a compact, attractively finished system for remote bypass control of either 12 or 16 Kelmar lighting control systems. The easy-to-install, low-voltage design includes status displays for all auditoriums.

DBR-12 12-Theatre Dimmer Bypass Remote\$ 695.00

DBR-16 16-Theatre Dimmer Bypass Remote 715.00

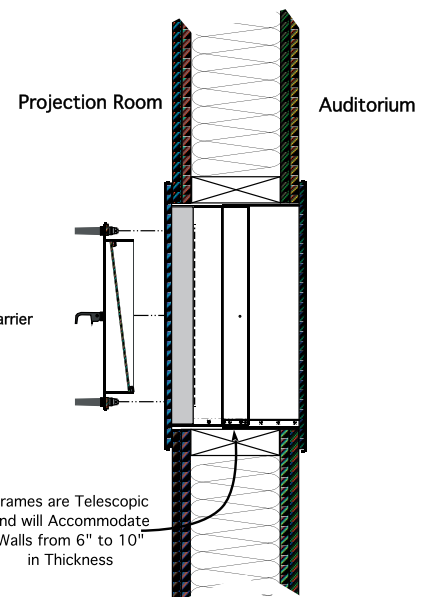

Physical Plant Equipment

Hi-Performance Porthole

The use of short focal length lenses, together with Stadium Seating and projection angles below the horizontal, requires a new set of design requirements for Projection Portholes. This Portframe system consists of attractive telescopic wall sleeves with a clear opening of 16" high and 24" wide. Both Return Trim Flanges incorporate 3/8" thick elastomeric seals to ensure freedom from acoustical leakage. The Dual Sided AR Port Glass is factory installed with dual isolation media for maximum noise attenuation in an easily removed carrier. Transmission efficiency of the glass is enhanced through double anti-reflective coating.

The Standard assembly provides adequate image clearance for lenses as short as 30mm. The wide angle unit will accommodate lenses down to 24 mm in focal length.

16X24 PORT	16 X 24 3 PC ISO. Portframe <u>Complete with 2X AR Port Glass</u> Rough Opening: 16 1/2" X 24 1/2" \$ 815.00
16X24 PORT/LG	16 X 24 3 PC ISO. Portframe <u>WITHOUT Glass</u> Rough Opening: 16 1/2" X 24 1/2" 650.00

Note: Porthole Sleeve Assemblies can be made to your specifications. When ordering, please specify finished interior dimensions, wall thickness and whether the glass is to be supplied by Kelmar or Customer. Please allow 8 to 10 weeks for delivery on custom units.

Physical Plant Equipment

Standard Porthole

A convenient solution to a perennial problem; all welded 14 gauge steel construction, black satin powder coat finish and elastomeric seals ensuring maximum noise attenuation.

Standard units accommodate wall thickness from 6 to 10 inches and provide a finished appearance for both the projection room and auditorium walls.

All units come complete with OUR NEW POSI-LOCK glass mounting kit which includes adhesive backed "D" cell gasket, edge guards and a LOCKING handle. Making the ports air tight and secure.

Ports ordered with glass will have TRIM KITS FACTORY INSTALLED.

Automation Systems DIGITAL

ACS-1 Auditorium Control Station

The ACS-1 Auditorium Control Station is an economical and convenient way to facilitate the manual control (override) of all Auditorium control systems (Dimmers, curtains, masking, and 2 user addressable options), from a single convenient location.

All switches are single pole single throw center-off momentary action toggle switches; each switch has a rating of 6 amp @ 125-250 Vac 1/8 HP. All switches are terminated directly to a clearly marked interface terminal block for ease of installation in the field.

The unit measures 10-1/8" wide x 5-1/8" high x 3-5/8" deep and has 3/4" conduit knocks on both the top and bottom of the enclosure. The panel and enclosure are constructed of 16 gauge steel finished with epoxy powder coat finish and all function switches clearly silk screened for ease of identification and operation.

Audio Systems

Surround Speaker Termination Panel

The Kelmar JB-2000 Surround Speaker Termination Panel is a time saving convenience that pays for itself within hours. The Panel is shipped pre-wired for Four Individual Surround Channels. Twenty four Speakers can be fed in a balanced configuration. Precision dummy load resistors accommodate odd numbers of speakers. The enclosure is constructed of heavy gauge steel with all the appropriate KO's in both the top and bottom for efficient Installation. The panel can be easily mounted on either the Projection Booth Wall or on the Audio Rack at eye level for ease of installation and service. Clearly marked terminals and easy to follow instructions included with each panel make for a straight-forward and timely installation.

Automation Systems

Series VII Automation

The Series VII Automation, the compact design, proven reliability, and competitive pricing makes this Automation the logical choice for todays multiplex theater. Available in either Console or Wall Mounted package to suit your needs. UL Listed to satisfy local inspectors. The modular design and layout make installation in either configuration simple and straightforward. We have incorporated the features you need to make operation and presentation of your show effortless and consistent show after show.

DELUXE FEATURES

- Digital LED Start/ Intermission Timer
- A Unique Film Advance Circuit for Film Run Down
- Format Pre-selects for both Opening and Feature Sequence
- Remote Status Outputs for Either Remote Status Systems as shown on Page 6 of this catalog
- Low Voltage Xenon Lamp Control Circuit

STANDARD FEATURES

- 2 Wire Interlock
- 3 Function Digital Cue Detection Easily Upgradeable to 7 Functions
- Full Manual Back-up Controls for all Projector and Auditorium Functions
- Low Voltage Panic Interface
- Multizone Lighting Control
- Modular Design for Ease of Service

Series VII-CM	Console Mount Automation with Start/ Intermission Timer	\$ 2,845.00
Series VII-CM/LC	Console Mount Automation without Start/ Intermission Timer	2,740.00

When ordering, please add -AB to part number for American Cue Detector Mounting Bracket or -V5 for Cinemeccanica V-5.

Automation Systems

WALL MOUNT VERSION

CONSOLE MOUNT VERSION

Series IV Automation System

Incorporating the same integrity and proven features that have made Kelmar Automations the reference standard system, this low-cost unit fills the need for a first-class, easy-to-install, totally reliable system for less complex installations. This Automation handles all Projector functions, as well as, Basic audio formats and auditorium control, but can be expanded to fill most needs of more complex installations. The modular design of the automation incorporates full digital cue detection as a standard feature, along with the essential automatic and manual control functions for domestic and foreign projection systems. Full schematics and easy to follow installation instructions complement this "best buy" program. Also available in console-mount version.

Automation Accessories

Digital Status Indicator Systems

The Kelmar Digital Status Indicator System is economical, easy to install and maintenance-free. The large high intensity four element LED displays provide outstanding color rendition from all viewing angles. An audible alarm directs your attention to the Alarm Display.

The system is comprised of two units, the first is the Transmitter Module which processes the information for RUN, FAULT, and FILM BREAK for up to 8 Automation Systems. This information is sent to the second part of the system which is the Receiver/Display Module via a 2 cond. # 20 Shielded cable. The Display Modules may be hooked up in a Series or Series /Parallel configuration.

The attractive cabinet measures 6" high x 15" wide and 3-1/2" deep. It is available in either a straight or sloped front design that adapts to wall, ceiling or back to back applications.

The Display Module is available with numbering of 1-8, 9-16 and 17-24.

DST-8	8-Theatre Status Transmitter	\$ 480.00
DSR-1/8	8-Theatre Status Receiver-Display Numbered 1-8	560.00
DSR-9/16	8-Theatre Status Receiver-Display Numbered 9-16	560.00
DSR-17/24	8-Theatre Status Receiver-Display Numbered 17-24	560.00

Analog Status Indicator Systems

This is a conventional hardwire system. Available with straight or sloped front panels of 8 to 24 stations. These eight-theatre modules can be numbered 1-8, 9-16 or 17-24. High intensity LED's indicate RUN, FAULT, and FILM BREAK; annunciator calls out the fault condition. Older systems require one 7878 Status/Alarm Interface Board per automation.

9558-S	8-Theatre, Straight	\$ 560.00
9558-A	8-Theatre, Sloped / Angled	575.00
7878	Status/Alarm Interface Board	95.00

Automation Accessories

Simple Interlock Module

This item is a self-contained economical Interlock Module for use with our Series IV Automation, as well as, with Christie AM-3,4,5,7,8, and 9 packages, and Xetron MAXI-7,8,10 series systems. It provides all logic and control functions for the systems to be used in a Multiple Buss 2 wire Configuration and has the ability to mix and match the aforementioned automation systems in any combination for total interlocking flexibility.

The module is packaged in either an attractive sloped top Wall Mount Enclosure or Console Mount Panel. The dimensions for the Wall Mount Cabinet are 6" wide x 9 1/2" high x 4" deep. The dimensions for the Console Panel are 3 1/2" high x 19" wide. The 9700 module incorporates low voltage logic and is powered by its host automation. A set of thoroughly documented instructions and schematics are included with each unit for ease of installation.

9700-IL/WM	Simple Interlock Module Wall Mount	\$ 500.00
9700-IL/C	Simple Interlock Module Console Mount	455.00

Digital Show Start Timer

Provides pre-selectable, automatic starting time for the Christie AM-3, AM-5, AM-7, AM-8 and AM-9. It also interfaces with Xetron MAXI-7,8,10 series systems. It is ideal for use with the Kelmar Series III or IV automation systems. The attractively packaged unit works equally as well in any convenient location. Also available in console mount on a 3-1/2" x 19" rack panel.

(Please specify console manufacturer when ordering)

SST-1WM	Show Start Timer Wall Mount	\$ 425.00
SST-1C	Show Start Timer Console Mount	415.00

Remote Control Module

Provides illuminated start and stop controls, together with a fault indicator and annunciator. Works with Kelmar Series II, III, IV, V, VI, and VII; Christie AM3, 4, 5, 7, 8, 9, 10; and Xetron MAXI-7,8,10 series systems.

RCM-1	Remote Control Module	\$ 380.00
-------	-----------------------------	-----------

Sync Selector Systems

Provides flexible grouping of interlocked projectors by utilizing 4 independent busses.

8527-6	6 Theatre Sync Selector Module	\$ 395.00

Film Handling Equipment & Accessories

Interlock Loop Accumulators

Movable Loop Accumulator

Our portable film transfer/loop accumulator from Kelmar is the perfect multiplex accessory. The large, wide flange ball bearing guide rollers are self-aligning and static free. Film transfer is effortless and can even turn around corners without loading. Three or more units can work in series for those long range assignments. The modest price of this system coupled with the quality of components and outstanding performance make this product a best buy.

MLA-1 35mm Portable film loop accumulator \$ 635.00

*** 70mm Version is available ***

Fixed Film Loop Accumulator

35mm wall mount film loop accumulator, used for interlock operation, keeps tension on film between projectors.

Film Conditioning System

The Film Conditioning System is a low cost, effective product that maintains image quality and performance. It is portable, works in any position and mounts on all projectors or film delivery systems. The Kodak PTR rollers snap off for easy cleaning. Stainless steel and anodized aluminum construction guarantees many years of maintenance-free satisfaction.

Requires either 7508229 or 7508230 mounting brackets unless you also own the Film Cleaner, in which case you can use its mounting bracket(s).

Kelmar/Dolby® Digital Basement Reader

The new Kelmar Digital/Analog Basement Reader delivers, in one convenient package, flawless four-track analog stereo plus six-track Dolby® Digital performance. Proven design, all solid-state technology, massive heat sinks, conservative power supplies and rugged mechanical components add up to total reliability. The benefits of scanning both formats in a non-penthouse environment without any modification in film threading procedures are tremendous. All systems are thoroughly aligned, pre-focused and certified for your convenience. Field installation is straightforward and predictable. The system comes complete with all power supplies and hardware.

The interface cable between the digital pre-amp and the rack-mount processor is available from Kelmar or Dolby®.

Audio Systems Red LED Analog Readers for Cyan Soundtracks

Kelmar Advanced Technology Systems contain an integrated suite of solid state components developed by Dolby® Laboratories Inc. They deliver a quality of analog optical stereo unattainable with conventional hardware. Crosstalk is eliminated and frequency response is flat to 16 KHz. The solid-state light source is conservatively rated for 15,000 hours of operation. The optical assembly features independent, non-interactive adjustments for focus/ azimuth, vertical, and lateral settings. A high reliability switching DC power supply that operates on 80-240 Vac 50-60Hz completes the system.

Or you may prefer our DC Conversion Module which facilitates the use of your existing Exciter Supply for further economy.

Direct replacement retrofit systems are available for all major optical reproducers. Field installation is straightforward and standard

Surround Speaker Termination Panel

The Kelmar JB-2000 Surround Speaker Termination Panel is a time saving convenience that pays for itself within hours. The Panel is shipped pre-wired for Four Individual Surround Channels. Twenty four Speakers can be fed in a balanced configuration. Precision dummy load resistors accommodate odd numbers of speakers. The enclosure is constructed of heavy gauge steel with all the appropriate KO's in both the top and bottom for efficient installation. The panel can be easily mounted on either the Projection Booth Wall or on the Audio Rack at eye level for ease of installation and service. Clearly marked terminals and easy to follow instructions included with each panel make for a straight-forward and timely installation.

JB-2000-EX

Surround Speaker Termination Panel.....\$ 290.00

The Docker

The Docker is a winner for the multi-screen theatre complex. Installed on any standard projector without modification, it provides an accurate platform for the mounting of the Dolby® CAT-701,702 Digital Penthouse, BACP Digital Penthouse, DTS Readers, or Sony SDDS Penthouse. Just a few readers will satisfy the booking requirements of the most complex auditorium arrangement.

A precision mounting pad attaches to the base of the reader and creates a self-aligning, completely portable system that satisfies Dolby®, BACP, DTS and Sony technology.

The Docker incorporates a rugged mounting pad for the support of the guidance hardware, which remains aligned and fixed in place.
